

MEETING THE PROJECT MANAGEMENT CHALLENGE

2004

Biography

Andrew Hunter

Resources Team Leader - Office of Earth Science at NASA HQ

Andrew Hunter joined NASA in 1988 as a Presidential Management Intern. Since early 1997, Andrew has served as the resources team leader for the Office of Earth Science at HQ. He is responsible for managing the process that formulates, executes, advocates and evaluates performance of the Earth science budget and program. Prior to this assignment he worked in the HQ comptroller's office with the cost analysis group where he conducted numerous Independent Annual Reviews of major NASA projects and presented the findings before NASA's Program Management Council. Other positions with NASA include 4 years in the HQ Shuttle program office and a year with the spacelab management office at MSFC. Andrew also had the opportunity to work on an 8 month detail with the Office of Management and Budget and began his Federal career with graduate study internships at the General Accounting Office and the Treasury Department. Andrew served as a Peace Corps volunteer in Togo, West Africa for three years, helping introduce the high tech concept of draught animal farming in the local economy. Andrew has a BA from the University of Colorado in Anthropology and a MPA from The American University. His real job and joy is being a father of three children, coaching youth baseball and living in a vibrant Arlington VA. neighborhood.
